A Building AI-powered tools because I refuse to do boring work manually

B Exploring UK hiking trails with my dog

C Reading PM books and listening to Lenny's Podcast at 1.5x speed

D Practicing Ashtanga yoga and pushing limits with HIIT

Experience

03/2023 - 01/2026

Veredus | London, UK

Consultant

- Built AI-enabled automation tool from 0→1 using vibe coding (Lovable), cutting manual research time by ~70% (~280 hours saved annually) - owned full product lifecycle: discovery, requirements, stakeholder buy-in, engineering collaboration, and team adoption.
- Translated ambiguous search requirements into clear selection criteria, including using publication data to help identify researchers matching highly specific role requirements.
- Designed and implemented Asana-based workflow system, reducing administrative overhead by ~150 hours/year through improved visibility and stakeholder alignment.
- Championed Metaview adoption as an ambassador, standardising AI meeting notes across calls to reduce admin and stay present in conversations.
- Led international executive search campaigns, managing stakeholders across universities, search committees, and candidates; successfully placed 32 senior leaders in UK Higher Education.

01/2021 - 03/2023

Fozzy Group | Kyiv, Ukraine

People Partner, HQ Teams

- Built onboarding platform from scratch (collaborated with engineers/ designers on welcome page, automated emails, pulse surveys), reducing new hire turnover from 29% → 18% in 12 months through data-driven iteration.
- Designed and launched company's first Performance Management cycle for 300+ employees, balancing stakeholder priorities (fairness, budget constraints, retention goals).
- Adapted HR processes during wartime, introducing retention and mental health resilience initiatives under extreme constraints.

02/2019 - 11/2020

Odgers Berndtson | Kyiv, Ukraine

Associate

- Managed end-to-end executive search for C-suite roles, balancing client expectations, candidate experience, and tight timelines.
- Placed 10+ senior executives across government, agriculture, construction, and retail sectors.

12/2015 - 12/2018

EY | Kyiv, Ukraine

Consultant

- Led diagnostic research and facilitated workshops for enterprise transformation projects (7K-60K employees); progressed from intern to consultant in 3 years
